## Description

This stunning Riviera 61 Enclosed Flybridge is seriously on the market with a very motivated vendor wanting action!

The current owner of this vessel has a 20metre berth at both Gulf Harbour and Westhaven Marinas. Either of which could be made available to rent or purchase to the approved purchaser of this boat.

Boasting 4 cabins and accommodation for 7 - 8, this Riviera 61 would work extremely well for those wanting plenty of space to host guests or the option to accommodate crew.

Traditionally the 61 is designed to go offshore and up to the islands with a professional crew and all to be kept comfortable with air conditioning units in each cabin and caters for all with 5 fridge drawers in the galley along with two freezer drawers also supported with a large cockpit freezer and water maker.

The stainless steel joinery in both the flybridge and saloon exterior enhance the exceptional lines and look of this boat.

Entertaining has been made easy with the aft galley with stainless steel hopper window leading to excellent indoor outdoor flow and an entertainment system to go with it. The entertainment system package includes a 40inch Samsung LED TV, BOSE surround sound system, ambient interior and exterior lighting. Cooking is made easy with the 240v built in aft BBQ in cockpit.

The cockpit provides ample storage to keep all the water toys, dive and fishing gear nicely tucked away and a bower twin bottle auto fill dive compressor.

Powered by twin 1575hp Caterpillars she is also capable of an impressive high end speed if required of 36 knots and can also be fuel efficient making for stable and enjoyable cruising.

She is also easy to manoeuvre and dock with bow thruster and express throttles.

Communicate has been set up for those wanting to get away from the hustle and bustle of life, or should you wish to operate your business on board, the technology is all there. From the very latest Thermal and low light cameras to the fully customised Czone digital switching and on board system management upgrades. Allowing the owner to have full control with a swipe of his finger when bringing the vessel to life. From your cellphone you also have the ability to remote start/stop one gen-set and monitor all vital systems. If you need to conduct business while on board the vast array of equipment available will allow you to simply communicate with the outside world. For the technical amongst us this includes the Uniden two line phone system, printer, scanner, fax, Fleet Broadband with 150 sat, along with Vsat-V33 Broadband units.

We believe that Communicate would have to be the best Riviera 61 Enclosed Flybridge currently on the market so do not delay viewing!
